process and profession from basic
concept to production

Sabine Althausen

My name is Sabine Althausen and I am a graphic designer from Cologne, Germany.

I have been designing professionally for over a decade and have worked on a broad variety of tasks in the process of creating beautiful and meaningful designs. My expert knowledge of the Adobe Creative Suite allows me to play a crucial role in the implementation of my clients design initiatives.

My experience include brand identity creation projects, sales and marketing collateral, multi-page layouts, package design, website design, advertisements, POP displays, social media assets and much more.

Since I grew up in Germany, but have lived and worked in the United States and the Netherlands, my history often informs my work in a major way. Whether a project calls for the latest trends or timeless tradition, I possess a sense of awareness that makes the work I create both beautiful and functional.

My employers and clients rely on my ability to work as part of a team and on my own, even under the demanding pace and tight deadlines of agency work.
